#### Cup holder with controller:

It is important to specify the placement of the cups; on left arm or right arm and which recliner they will control. If you have a row of several seats with cup holders, by default, the controls will be on the left arms and on the right arm for the last outer chair.

Our illuminated one or two-control cup holders are compatible with LED lights under the seat. You can control the light on the cup holder. The 2 motor cup holder has a reset (home) button control to close your recliner back to its starting position.

#### LED Light under seat (Optional)

Available only in configurations with a minimum of 1 illuminated motorized cup holder with control buttons. The "light" button will control the opening and closing of the light.

For cup holder prices see description section of the Optima model price list.

Please provide us with a drawing of your configuration which indicates the cup holder type and its positioning.

#### Cup holder with controller:

It is important to specify the placement of the cups; on left arm or right arm and which recliner they will control. If you have a row of several seats with cup holders, by default, the controls will be on the left arms and on the right arm for the last outer chair.

Our illuminated one or two-control cup holders are compatible with LED lights under the seat. You can control the light on the cup holder. The 2 motor cup holder has a reset (home) button control to close your recliner back to its starting position.

#### LED Light under seat (Optional)

Available only in configurations with a minimum of 1 illuminated motorized cup holder with control buttons. The "light" button will control the opening and closing of the light.

For cup holder prices see description section of the Optima model price list.

Please provide us with a drawing of your configuration which indicates the cup holder type and its positioning.

#### Cup holder with controller:

It is important to specify the placement of the cups; on left arm or right arm and which recliner they will control. If you have a row of several seats with cup holders, by default, the controls will be on the left arms and on the right arm for the last outer chair.

#### EXAMPLE A:

#### Cup holder with controller:

It is important to specify the placement of the cups; on left arm or right arm and which recliner they will control. If you have a row of several seats with cup holders, by default, the controls will be on the left arms and on the right arm for the last outer chair.

LED Lighted Cup holder with Dual Motor Control, USB Port and LED Base rail

Our illuminated one or two-control cup holders are compatible with LED lights under the seat. You can control the light on the cup holder. The 2 motor cup holder has a reset (home) button control to close your recliner back to its starting position.

#### LED Light under seat (Optional)

Available only in configurations with a minimum of 1 illuminated motorized cup holder with control buttons. The "light" button will control the opening and closing of the light.

For cup holder prices see description section of the Optima model price list.

Please provide us with a drawing of your configuration which indicates the cup holder type and its positioning.

#### Cup holder with controller:

It is important to specify the placement of the cups; on left arm or right arm and which recliner they will control. If you have a row of several seats with cup holders, by default, the controls will be on the left arms and on the right arm for the last outer chair.

#### EXAMPLE A:

042-170: Controller and cup holder on right arm

#### EXAMPLE B:

071-171: These two items can be connected to a smart cup holder which will control the recliner. You must then use one of these items: 138, 159, 160 and 190

#### Informations about headrest, controller on reclining seat

Our illuminated one or two-control cup holders are compatible with LED lights under the seat. You can control the light on the cup holder. The 2 motor cup holder has a reset (home) button control to close your recliner back to its starting position.

#### LED Light under seat (Optional)

Available only in configurations with a minimum of 1 illuminated motorized cup holder with control buttons. The "light" button will control the opening and closing of the light.

For cup holder prices see description section of the Optima model price list.

Please provide us with a drawing of your configuration which indicates the cup holder type and its positioning.

#### Cup holder with controller:

It is important to specify the placement of the cups; on left arm or right arm and which recliner they will control. If you have a row of several seats with cup holders, by default, the controls will be on the left arms and on the right arm for the last outer chair.

#### EXAMPLE A:

041-169: Controller and cup holder on the left arm

071-171: hidden touch sensor buttons on side of seat

042-170: Controller and cup holder on right arm

#### EXAMPLE B:

071-171: These two items can be connected to a smart cup holder which will control the recliner. You must then use one of these items: 138, 159, 160 and 190

#### Informations about headrest, controller on reclining seat

Our illuminated one or two-control cup holders are compatible with LED lights under the seat. You can control the light on the cup holder. The 2 motor cup holder has a reset (home) button control to close your recliner back to its starting position.

#### LED Light under seat (Optional)

Available only in configurations with a minimum of 1 illuminated motorized cup holder with control buttons. The "light" button will control the opening and closing of the light.

For cup holder prices see description section of the Optima model price list.

Please provide us with a drawing of your configuration which indicates the cup holder type and its positioning.

#### Cup holder with controller:

It is important to specify the placement of the cups; on left arm or right arm and which recliner they will control. If you have a row of several seats with cup holders, by default, the controls will be on the left arms and on the right arm for the last outer chair.

#### EXAMPLE A:

#### EXAMPLE B:

Our illuminated one or two-control cup holders are compatible with LED lights under the seat. You can control the light on the cup holder. The 2 motor cup holder has a reset (home) button control to close your recliner back to its starting position.

#### LED Light under seat (Optional)

Available only in configurations with a minimum of 1 illuminated motorized cup holder with control buttons. The "light" button will control the opening and closing of the light.

For cup holder prices see description section of the Optima model price list.

Please provide us with a drawing of your configuration which indicates the cup holder type and its positioning.

#### Cup holder with controller:

It is important to specify the placement of the cups; on left arm or right arm and which recliner they will control. If you have a row of several seats with cup holders, by default, the controls will be on the left arms and on the right arm for the last outer chair.

#### EXAMPLE A:

#### EXAMPLE B:

Our illuminated one or two-control cup holders are compatible with LED lights under the seat. You can control the light on the cup holder. The 2 motor cup holder has a reset (home) button control to close your recliner back to its starting position.

#### LED Light under seat (Optional)

Available only in configurations with a minimum of 1 illuminated motorized cup holder with control buttons. The "light" button will control the opening and closing of the light.

For cup holder prices see description section of the Optima model price list.

Please provide us with a drawing of your configuration which indicates the cup holder type and its positioning.

#### Cup holder with controller:

It is important to specify the placement of the cups; on left arm or right arm and which recliner they will control. If you have a row of several seats with cup holders, by default, the controls will be on the left arms and on the right arm for the last outer chair.

#### EXAMPLE A:

Our illuminated one or two-control cup holders are compatible with LED lights under the seat. You can control the light on the cup holder. The 2 motor cup holder has a reset (home) button control to close your recliner back to its starting position.

#### LED Light under seat (Optional)

Available only in configurations with a minimum of 1 illuminated motorized cup holder with control buttons. The "light" button will control the opening and closing of the light.

For cup holder prices see description section of the Optima model price list.

Please provide us with a drawing of your configuration which indicates the cup holder type and its positioning.

#### Cup holder with controller:

It is important to specify the placement of the cups; on left arm or right arm and which recliner they will control. If you have a row of several seats with cup holders, by default, the controls will be on the left arms and on the right arm for the last outer chair.
